

Keshav Kashyap

Software Developer

(+91) 9058332542 | kashyapkeshav934@gmail.com | Portfolio | GitHub | LinkedIn | YouTube

SUMMARY

Full-Stack Software Developer with experience building production-ready web applications using React.js, Next.js, Node.js, Flask and FastAPI. Passionate about AI-powered applications, scalable backend systems and modern web technologies.

EXPERIENCE

Software Development Engineer

Apr 2026 – Present

One Place Solar (CRM Project)

Agra, India

- Developed production CRM modules using React.js, Bootstrap, Flask, FastAPI, MongoDB and PostgreSQL.
- Built and optimized REST APIs and fixed production issues.
- Collaborated with founders and developers to deliver production-ready features.
- Improved application stability and deployment workflow.

Software Developer Intern

Dec 2025 – Apr 2026

One Place Solar

Agra, India

- Contributed to CRM development using React.js and Python.
- Implemented new features, testing and bug fixing.
- Worked on real-world production software.

PROJECTS

QRA AI Interviewer Platform | *Next.js, ShadCN UI, OpenAI API, VAPI, Supabase*

Live

- Designed and built an interactive AI voice and text mock interviewer platform that has successfully processed 200+ active users.
- Integrated ChatGPT API and VAPI to support real-time audio interaction, natural conversation, and tailored feedback generation.
- Utilized Supabase for user authentication, relational database storage, and low-latency session persistence.

EZYLEarn Student Learning Platform | *Next.js, Neon PostgreSQL, Drizzle ORM, Clerk, Appwrite*

Live

- Developed a scalable student learning management platform supporting 200+ active students for course content consumption.
- Designed normalized database schemas using Neon PostgreSQL, queried efficiently and safely using Drizzle ORM.
- Integrated secure authentication with Clerk and structured media assets hosting and backend services on Appwrite.

Toking Allvez Video Meeting App | *React.js, Node.js, Socket.io, WebRTC, TailwindCSS*

Live

- Engineered a real-time peer-to-peer video conferencing application with embedded instant chat capabilities.
- Implemented WebRTC protocol for low-latency video and audio transmission along with Socket.io signaling server.
- Built robust server architecture using Node.js and Express, with a responsive frontend built on React.js.

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, Java, SQL

Frontend: React.js, Next.js, Tailwind CSS, ShadCN UI, Bootstrap, React Native

Backend: Node.js, Express.js, FastAPI, Flask, REST APIs, Authentication

Databases: MongoDB, PostgreSQL, MySQL, Prisma ORM, Drizzle ORM

AI & Data Science: NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow, Keras, OpenCV, spaCy, NLTK, OpenAI API, Gemini API, Prompt Engineering, RAG (Basics), AI Automation

Other: WebRTC, WebSockets, MVC, Git, GitHub, Postman, AWS (Basics), Vercel, CI/CD (Basics)

Soft Skills: Communication, Leadership, Teamwork, Problem Solving

EDUCATION

RBS Management Technical Campus

2023–2028

Integrated MCA

Current SGPA: 8.5

RBS Inter College

2023

Class XII (UP Board)

81.2%

ACHIEVEMENTS

- School Topper in Class XII (UP Board).
- Cyber Security Workshop by Institution Innovation Council (IIC).
- YouTube Creator – Keshav Talk (85K+ Subscribers).
- 3+ Years Mentoring students in C, C++, Java, Python and Web Development.
